

Specially designed for hauling your ATV camping, fishing or hunting gear in wet weather or over dusty trails.

The ATV trailer's lightweight aluminum body is sealed to protect your valuable cargo while keeping the dust and water out. Thanks to a fully TIG welded body and weather sealed lid, your gear is well protected and stable over the roughest of terrain. High performance features you will not find in any other ATV trailer such as independent suspension and huge 25" tires. To complete the package, there's a gas shock on the hinged lid for easy opening, a cargo rack, locking latches, tie down "D" rings, a taillight/brake light and a fuel can holder. Check it out, you can't find another UTV pull behind trailer with all these features-anywhere!

"This thing is a party on wheels. It not only gets the gear to the campsite, it brings the bacon and the beverages too."
